embrace assessments

ONLINE E-LEARNING MANAGEMENT TOOLS

Distribute via the internet or via email

Our Embrace product portfolio provides your business with a range of powerful web enabled tools to build better business performance.

Using Embrace Assessments anyone in your organisation can quickly create web based assessments of staff.

As assessments are completed they are automatically marked. Enabling your organisation to quickly determine, existing staff or potential new hires' abilities, product knowledge and understanding of your business.

"We discovered this new Embrace tool recently and it has given us a real but very low cost quality boost to our business.

People right across our company are using it in their daily work to understand our customers better as well as improve our internal assessment and learning activity."

Lee Shave
Commercial Director
