

embrace courses

ONLINE E-LEARNING MANAGEMENT TOOLS

Full
elearning
management
system

Our Embrace product portfolio provides your business with a range of powerful web enabled tools to build better business performance.

Imagine being able to distribute courses across multiple sites and countries.

Your training departments can track, for each member of staff, courses enrolled on, courses taken, time to complete, score and did they pass or fail.

"We discovered this new Embrace tool recently and it has given us a real but very low cost quality boost to our business."

People right across our company are using it in their daily work to understand our customers better as well as improve our internal assessment and learning activity."

Lee Shave
Commercial Director
